## Water Feature "Flex" Pump Series

We offer the Little Giant ${ }^{\circledR}$ brand of Water Feature Pumps to exacting specifications for optimum efficiency and long life. Our new line of "flexible" water feature pumps are designed for in and out of pond use, and are constructed with stainless steel and durable thermoplastic. Plus, each pump meets the rigorous demands of the most impressive water features. There are five different sizes to match virtually any application for use in or out of water. Recommended for Koi and Goldfish ponds as well as features without fish. Use in conjunction with Little Giant skimmers and biological waterfall filters for a complete, ecologically balanced system.

Features/Benefits:

- Submersible or out of Pond Water Feature Pump

Ideal for powering water features and pond filtration systems with flows from 1,000 GPH to 8,700 GPH

- Heavy-duty, stainless steel canned motor

To assist in cooling motor to extend the life of the pump

- Clog-resistant design

Capable of passing solids

- Continuous duty rated

Operates in the most rigorous of feature applications

- Energy efficient encased motor

Using only 106 to 730 Watts
