

Vent Free Gas Fireplace Systems and Inserts
Versatile Options To Match Your Lifestyle

ADD WARMTH AND LUXURY TO ANY ROOM

A Majestic vent free fireplace system gives you the freedom to install almost anywhere. And, with our diverse options ranging from compact models perfect for smaller rooms to larger models with more heating power, there's a vent free Majestic product that's right for you.

Parlor Series

HIGHEST EFFICIENCY HEATING TO SAVE ENERGY

Vent free gas fireplaces, available in natural gas and propane designs, are a safe, green and energy efficient way to add heat to your home — in fact, they're 99.9% energy efficient. Because they are vent free, none of the heat gets lost up a vent, flue or chimney. Instead, fuel dollars get transformed into heat-warming energy. Plus, you'll always have the assurance of a heat source in the event of a power outage.

FREEDOM TO INSTALL ALMOST ANYWHERE

Because vent free fireplaces are designed to be installed and operated without a chimney, flue or vent, they can be installed in locations in your home where it would be impossible to install a vented fireplace. They provide the most economical installation, only requiring a connection to a gas line.

CONVENIENT ZERO CLEARANCE

Majestic vent free fireplaces allow for zero clearance installation, which means they may be installed flush against any combustible surface such as drywall or wood. This gives you added flexibility and helps save installation dollars when deciding where to install your fireplace, whether on an interior or exterior wall, or even in a corner.

(It is important to remember that the appliance should be sized to fit the area in which it is to be installed and must meet any additional regional or local requirements.)

Chesapeake Series

Count On This All-in-One Customer Favorite **Chesapeake CFX Series**

This best-selling model comes complete with firebox, strikingly realistic log set, decorative face and beautifully crafted Barrington cabinet — all ready to install! With the Chesapeake vent free system, it's never been easier to make your house a home.
