

**C**
**Ultra Thin Cut-Off Wheels**
**FASTER CUTTING 20% Thinner Than Most Competitor Wheels.**

Zirconia aluminum construction makes these wheels ideal for ferrous metals including stainless steel

Ultra thin design requires less energy for improved battery life when used with cordless grinders

60 grit abrasive for cleaner cuts

**SPEED**

.032" thick for faster cutting and reduced material waste

**Ultra Thin Cut-Off Wheels**

**Flat Center**

- .032" thick for faster cutting and reduced material waste

**Depressed Center**

- For making cuts in metal and stainless steel pipes, sheet, and channel

- Super thin design lasts up to 3.5x longer than standard cut-off wheels
- Engineered for less heat discoloration, less material removal, and less burring for a better finish

- Improved material removal with less noise and vibration for improved efficiency
- Flexible design allows for more surface area contact and more efficient material removal

**Warning:** Consult owner/operator manual and adhere to all safety precautions for accessory items. Always use recommended guards. Failure to do so may result in serious injury or death from exploding wheels. Refer to ANSI B7.1 and owner/operator manual for proper accessory mounting and grinding procedures. Always wear eye protection that meets ANSI Z87.1 requirements plus a face shield wherever possible. Tools must always be properly guarded.
