Dekorrra Mock Rock Installation Instructions

Step 1.

Identify where the rock will be placed and which direction fits best for your application as well as best visual appeal obtained by rock placement.

Step 2.

Test fit rock in place over object to be covered. Remove and pull back decorative stone or mulch from area the rock will cover.

Step 3.

Remove stake kit from inside Mock rock. Reposition Mock Rock into acceptable location over object to be covered.

Step 4.

Install plastic stakes or optional anchors through stake flange locations until flush at the flange.

Step 5.

Replace mulch and or decorative stone over the base of the rock as well as over the stake flanges.
