An all-new perspective is coming your way right into your very own bathroom with the ProStock smart bidet toilet. Its single piece, space saving design uses a completely skirted bowl for an easy-to-clean and modern look. Featuring dual nozzles on adjustable spray wands, you can experience a more personalized and sanitary cleaning. A concealed foot sensor lifts the seat, and flushes the bowl, hands-free. Temperature, pressure, and spray position are all adjustable. A warm air dryer caps your extraordinary bathroom experience that only an electronic bidet-toilet can offer.
