STEEL HAWG® CUTTERS

THREADED STEEL HAWG® CUTTERS

OVERVIEW

MILWAUKEE® Threaded STEEL HAWG® Cutters Are designed to cut Faster and longer in tough metal materials. These long-lasting cutters feature carbide teeth and an alternating cutting pattern to cut up to a 2" hole depth in steel, stainless steel, cast iron or aluminum. A spring-loaded, self-ejecting pin lets you make smoother, more accurate cuts and eject plugs faster. The STEEL HAWG® Cutter works with most electromagnetic drill presses. For best cutting results use HAWG WASH™ cutting fluid to keep cutting surface cool and lubricated. HAWG WASH™ fluid is available in 16 ounce bottles (49-32-0081). One bottle makes one gallon of lubricating solution. Order oil hose (43-75-0010) and hand pump (44-46-0090) separately to distribute cutting fluid during drilling.

FEATURES

- Faster Cutting: Alternating tooth form geometry makes fast work of cutting steel
- Long Life: Abrasion-resistant carbide teeth increase cutter life and produce a cleaner cut
- Versatile: 2" Cutting depth
