

MotionSense Wave™
Sensor on the
Touchless One-Handle
Lavatory Faucet

Cia™ Bath Suite

Modern design with a broad décor style reach.

With its name inspired by an elegantly lengthened C-shaped spout form, Cia stands out from the linear, horizontal designs featured in most modern faucets. The spout's contemporary curves and the handle's defined edges combine with elegant details for a look that feels classic yet fresh. Depending on the finish, this collection beautifully reaches across décor styles from luxe modern to soft modern to industrial chic. The collection also introduces Moen's first one-handle lavatory faucet with single-sensor touchless activation featuring MotionSense Wave technology, allowing users to turn water on and off with the simple pass of a hand. Finally, Cia offers a new combination of matte black with optional brushed gold accents for an elevated aesthetic in the bath.

AVAILABLE FINISHES

-  Chrome
-  Brushed Nickel
-  Brushed Gold
-  Matte Black
