

Socket Storage Module, S-Hook

The Bucket Work Center is an ecosystem that will revamp the way a Lineman works. It allows Lineman to customize their workspace, just like other professionals customize their office space. Klein Tools' Socket Storage Module has six slots that fit commonly used impact socket sizes used in utility work. This will be the Lineman's office. The S-Hook System easily attaches to aerial buckets with a standard 2-inch or 3-inch (5.1 or 7.6 cm) bucket lip. An assortment of modules are available to customize each workstation to fit the tools needed for the job.
