LOOK UNDER THE POWER TOOL
Makita Lithium-Ion Batteries are compatible with ALL 18V Lithium-Ion Tools with the STAR SYMBOL™ and / or Yellow Battery Receivers

Digital Communication
The battery has a built-in CPU that records the usage history and transmits that information to the charger

Multi-Contact Terminals
Reduce electrical resistance and increase connection stability ensuring a stable current supply to the tool

Anytime Charge
No Memory Effect
No Discharging Required

Shock Absorbing
Heavy Duty Outer Shell

Longtime Storage
Low Self Discharge

LXT Batteries Feature an LED**

CHARGE LEVEL INDICATOR

18V LXT DUAL-PORT RAPID CHARGING SYSTEM

Charges TWO Batteries Simultaneously - DC18RD

Automatic Charging Controls

The rapid charger's CPU communicates with the battery's onboard data chip. After analyzing the battery condition, it automatically charges for extended performance and cycle life.

Forced Air Cooling Fan

Cools the battery by forcing cool air through the battery's built-in air vents to minimize charging time.

USB Port

Enables convenient charging of mobile devices on the jobsite.

You Tube

Charging Display Controls

Shows battery's current condition and charge level indicators.

DC18RD

Rapid Charging System Regulates Thermal, Voltage and Current during Charging Cycle to ensure Battery cannot be Over-Charged or Over-Heated during the Charging Process
