

FREEFLEX™ INSULATED JACKET

The FREEFLEX™ Insulated Jacket is designed with stretch panels across the back and built with lighter, more durable materials that maximize mobility. This durable jacket features a quilted lining and protection against wind and water to work hard in cold conditions. Focused on providing reinforcement in areas where traditional workwear fails, the FREEFLEX™ Insulated Jacket provides ultimate pocket durability and resistance to abrasive materials.

ENGINEERED TO MOVE FREELY ON THE JOB

Custom action back design paired with full range arm movement

WIND AND WATER RESISTANT

Protects against changing jobsite conditions

INSULATED QUILTED LINING

Provides the warmth needed to keep working all winter without adding bulk

JOBSITE DURABILITY

Ripstop reinforced elbows and shoulders

DESIGNED TO LAYER COMFORTABLY

Provides room to layer underneath when temperatures drop
