

TRADITIONAL FABRICATION OF A PVC HEADER VS. 1 COIL OF RAIN BIRD® QF DRIPLINE HEADER™

100 FT. OF PVC HEADER

- 100 fittings
- 100 adapters
- 100 ft. of cut PVC
- Tape and bottles of glue

1 100 FT. COIL OF PREFABRICATED QF DRIPLINE HEADER™

Achieve tighter bends on
non-symmetrical landscapes,
hardscapes, and medians

- Easy to install. No more measuring, cutting, gluing or taping
- Pre-installed barb fittings that rotate 360° - Simply roll out and attach the dripline to desired position
- Same performance as comparable sized PVC
- A proprietary blend of polyethylene provides the same easy-to-manage, self-dispensing coil as other Rain Bird XF Series Dripline
- Available in 100' coils
- 3/4" and 1" diameters, 12" or 18" spacing
- Accepts any 16-17mm dripline
- Uses industry standard fittings
