## SeeSnake® MAX rM200 Camera System

The rM200 Camera System combines portability and versatility to make your drain inspections easy and efficient. The rM200 features a newly designed push cable for greater abrasion resistance and more efficient push-ability.

- Next Generation Push Cable and Improved Reel Mechanics make inspections easier than ever allowing you to push further with less effort.
- Ultra Compact Camera Head allows easier passage through tight turns while still illuminating pipes up to 8".
- Docking System allows you to attach monitors for easy transport and connected viewing.
